Web scraping

Ignacio Joaquin

Full Stack Developer (Back end oriented) | Docente
Rosario, Santa Fe, Argentina

Experiencia

Digital Nova

Full Stack Developer

octubre de 2025 - Present (1 año)

Росарио

Worked on multiple client projects, designing and building full-stack applications with a strong focus on backend systems, payments, and security.

Santino Motos: Built a motorcycle dealership management platform from the ground up using Next.js, TypeScript, Supabase, and Prisma. Developed sales, wholesale financing, legal closure, motorcycle intake, transfer, and certification modules. Implemented certification expiry alerts, approval history, ARCA invoice uploads, payment rollback workflows, and authorization for sensitive financial operations.

ARacing: Developed a go-kart reservation platform using Next.js, Firebase, OpenAI, and Mercado Pago. Built an AI-powered WhatsApp assistant with tool calling, conversation management, Cloud Tasks session cleanup, Mercado Pago webhook signature verification, idempotent payment processing, and fixed a production webhook spoofing vulnerability. Also implemented coupons, school registrations, and payment integration.

Custom Fortune: Built an e-commerce platform using React, Supabase, and Stripe. Implemented Row Level Security (RLS), order-level authorization, hardened Edge Functions with stricter CORS policies, guest-to-user order synchronization, transactional emails, and secure checkout validation.

Technologies: TypeScript, Next.js, React, Supabase, Prisma, PostgreSQL, Firebase, OpenAI, Stripe, Mercado Pago.

Instituto Politécnico Superior "General San Martín"

Profesor Adscripto

marzo de 2026 - Present (7 meses)

Росарио

Teaching Assistant (Profesor Adscripto)

Served as an official Teaching Assistant for Haskell II and Web Programming III at Instituto Politécnico Superior (UNR).

Led laboratory sessions, mentored students during practical work, and helped them develop problem-solving and debugging skills. Assisted with grading assignments, preparing exercises and exams, and delivered occasional theoretical lectures.

Worked closely with faculty to support two senior-year courses, each with approximately 30 students.

Fundhemi

Voluntario

julio de 2021 - Present (5 años 3 meses)

Volunteered as a web developer for a patient foundation.

Built and maintained the foundation's website, helping improve its online presence and making information more accessible to patients and their families.

Bravo Web

Desarrollador de Backend (PHP)

mayo de 2025 - septiembre de 2025 (5 meses)

Rosario, Santa Fe, Argentina

Desarrollador Back-End Junior, formando parte de un equipo de desarrollo encargado de implementar funcionalidades nuevas en el producto.
